ASCII Fireworks Animated: how it is put together

Two small firework animations from 2023, sharing a repo:

sketched from the files

ASCII Fireworks Animated: the run, step by step

If a step fails, the honest run says so and stops.

traced, not guessed.

Product map: what ASCII Fireworks Animated is for

WHAT IT IS

Two small firework animations from 2023, sharing a repo:

WHAT GOES IN

The files at the top of the tree: large-fireworks.py, minimal-fireworks.py, README.md.

WHAT COMES OUT

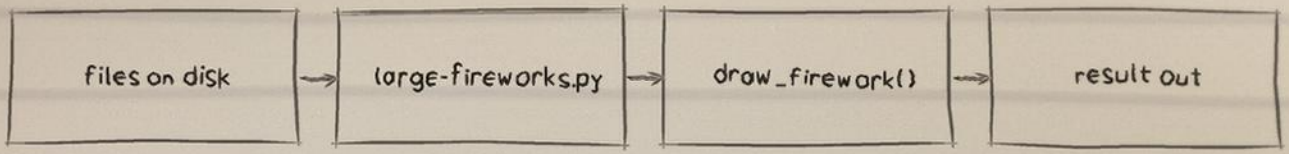

What the top files produce when they run or get read. Nothing else is promised.

WHERE IT STOPS

No service behind it, no account, no upload. If a path is untested, VISUAL.md says so.

mapped by hand, GR

ASCII Fireworks Animated: data flow, in one direction

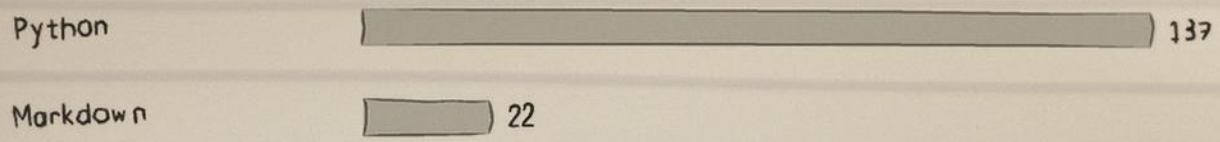

One direction. Anything the code does not do is not drawn.

second sheet, GK

ASCII Fireworks Animated in numbers, counted 2026-10-30

Counted from the local snapshot of this repo. Method for every number: VISUAL.md.

5 files in the tree.
11 commits, first 2023-01-26, last 2026-10-30, from the local git log.
No test files by name in this snapshot.

counted and drawn, GK

ASCII Fireworks Animated: schematic of the apparatus

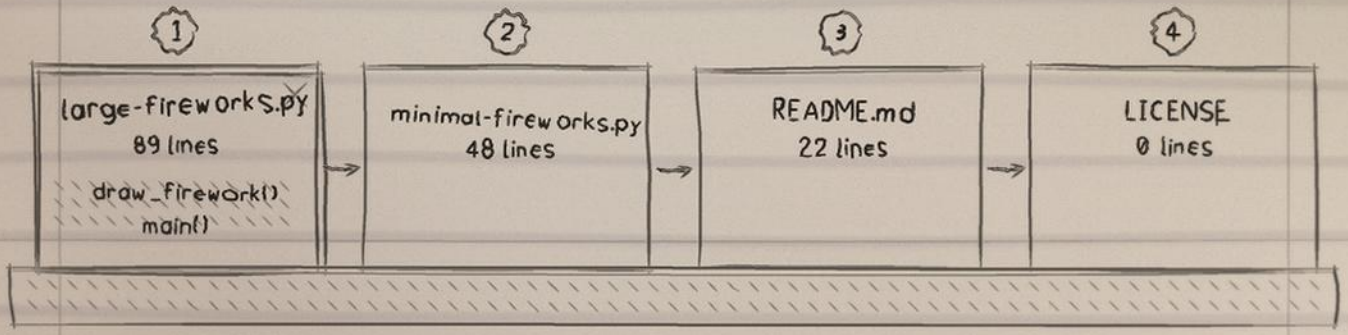

the system as a machine: parts, flow, and measurements

construction lines left in, as drawn

parts list

1. large-fireworks.py
2. minimal-fireworks.py
3. README.md
4. LICENSE

in flow order, first to last

base plate: the repo itself, sectioned

span: 5 files, 159 lines counted

turns of the crank so far: 11 commits, 2023-01-26 to 2026-10-30

measured and sketched, GK
